**RK-GY**

**RKD**

### High-end rock-shaped speakers

These outdoor Rock speakers are impact resistant, completely natural looking, weatherproof and will provide years of trouble-free listening enjoyment. They're great around pools, decks, putting greens, fire-pits and will compliment any garden or walkway. TruAudio rock speakers are so realistic, your friends will never suspect that the great sound they're hearing is coming from what looks like beautiful landscape rocks!

Experience the ultimate in relaxation with a high-performance outdoor sound system that will blend in with even the most meticulously manicured landscapes and patio environments! Both of our outdoor speaker series include a dual-tweeter model that provides stereo sound from one speaker.
